#### **Testimonial:**

"This course was recommended specifically by my own Pilates teacher, as one of the best on the market and I can truly say that it has given me the tools to teach, and knowledge to provide an excellent foundation in delivering my own classes. It is not any easy course, but then nothing worthwhile is easy, what is excellent is the support you receive throughout the course and the study materials provided, which are very comprehensive. The delivery by the tutors, both in a classroom setting and the studio were invaluable and initially pushed me outside my comfort zone, but by the final weekend I had been given everything I needed to pass the final exams. I've discovered that Pilates people are lovely, ready to help each other both during the course and after. I enjoyed it so much I'm coming back for some of the specific condition courses. Can't wait!"
